Who Killed Dave? is printed on 100% recycled paper using vegetable inks, and has been carbon offset. The marketing and promotion of the book will lean strongly on the **green** credentials of this mainstream novel.

Dave died in mysterious and grotesque circumstances and the murder has caught the imagination of the nation. There's a television poll running and 46% of voters believe Robyn is guilty. Maybe she did, maybe she didn't, she wasn't in any state to remember.

If your readers like Janet Evanovich, they'll love Who Killed Dave?
